Proposed Changes to MARAC Awards Rules

Reference Awards Rules Revised: 08/07/2026

The Awards Committee respectfully submits the following changes to the Award Rules

at the Board of Directors meeting to be held on September 19th, 2026:

Change Awards Manager TO Awards Secretary in the following places:

Page 4 - Award Application Process - change Awards Manager to Awards Secretary in six places on this page.
Page 10 - Log - change Awards Manager to Awards Secretary in one place in the third paragraph.
Page 14 – Add the following section right after “Valid Contacts”

Valid County Identity

An Award applicant may assume that the QTH of a fixed station is as stated on qrz.com for that call sign unless the applicant has reason to believe the QTH may be different, in which case the applicant should directly contact the other station to ascertain the QTH for the QSO.

In the case of contacts with a mobile or portable station, the applicant may (unless there is reason to believe otherwise) use the county indicated for that station at time of the QSO as reported on the https://ch.w6rk.com website or on similar websites used for spotting stations for county hunters.

In the case of contacts with a station active in the Parks on the Air (POTA) program, the

county in which the specified park is located may be used by the applicant; however, if the specified park is located in more than one county, the applicant should directly contact the other station to ascertain the correct county for the QSO.

KA9JAC made a presentation on his work for the new looking website for marac. Questions answered.

Thanks were given to KF7ZN for his work on the convention.

K2MF stated his liking of the new looking website and commended the Board for its work on the awards rules and by-laws.

N2MH and K2MF suggested a possible rebranding of county hunting as “COTA”. The group used the term "rebranding" loosely this weekend. We were brainstorming to see how we can make county hunting grow. Everyone agreed that we are envious of the POTA program and how it has captured the attention of so many activators and chasers. POTA, IOTA, and SOTA have become very popular, and well understood, terms in ham radio. So, the thought of "rebranding" was for us to piggyback onto the commonly understood "OTA" by creating the term COTA (Counties on the air). It would bring instant understanding by hams of what we were about- activating and making contacts with Counties, vs Parks, Islands, or Summits. When mobiles run, they could use "CQ COTA". It was suggested that COTA is managed by MARAC. Therefore we could reference COTA on our marac webpage and create an easy way for folks to find us by simply using Google to search "COTA ham radio" or something of that nature to find our marac.org page. We need to discuss this further to see how we can turn this into a winning scenario.

We mentioned that trademarking is a tricky topic. When you trademark a name, you must specify the actual industry that you are in. If there is no conflict within the same industry, you "should" be okay. So, unless some other ham organization wants to use marac, we should be fine.
